(Reg. U.S. Pat. Off. 1939)

**NEW  
CONCEPT  
IN THE  
TECHNIQUE OF  
PORCELAIN-  
BAKED-  
TO-GOLD  
Restorations**

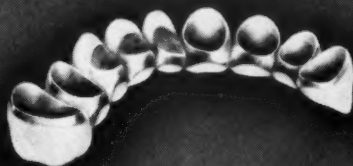

Each CERA-TEX creation is based upon over 20 years of experience with this type of restoration (Reg. U.S. Pat. Off. 1939) plus a new improved technique in baking porcelain-to-gold — exclusive with NU-DENT technicians!

Each NU-DENT restoration is backed by an unequalled record of more than 35 years of devoted responsibility to the dental profession. NU-DENT has prepared more esthetic restorations than any ceramic laboratory in the world. And — we stand in back of every restoration we make!

## THE CASE OF DR. BUSY (OR) THE DENTIST WHO DIDN'T EAT LUNCH

3 assistants couldn't have helped poor Dr. Busy, he had so many things to do! It wasn't that he didn't *want* to eat lunch, he just never could take the time.

Then he decided to let Standard do his restorations, with 42 experienced technicians to help him cope with every prosthesis problem.

Now Standard is reflecting Dr. Busy's skill in the highest quality workmanship. Fast delivery, reasonable prices, convenient location please him too.

Here's good advice:

Don't wait as long as Dr. Busy did to give us a call.

# THE MARCH OF ETHICS

## Illinois Supreme Court decision on bootleg dentistry

On March 22, 1956, the Supreme Court of Illinois issued its decision in the litigation initiated by the Chicago Dental Society against a number of dental laboratories. The dental society had charged the defendant laboratories with practicing dentistry and advertising their services in violation of the Illinois Dental Practice Act. The Supreme Court affirmed the issuance of an injunction against the defendant laboratories prohibiting them from dealing directly with the public and imposing appropriate restrictions on their advertising programs.

This decision supports our position that the complete responsibility for providing prosthetic dental services to members of the public should rest with the dental profession.

*We, the undersigned, pledge to maintain and, where necessary, strive to improve the standard of dental laboratory ethics, and to support the profession in their stand against malpractices.*

## PORCELAIN LINED ACRYLIC JACKET CROWNS

When you specify this increasingly popular Schroeder restoration, you are assuring your patient all of the precision fit of a porcelain jacket plus all of the dependable strength of the acrylics. You combine the best features of both and eliminate the weaknesses. The porcelain core contributes the true accuracy your impression calls for, and the acrylic surface adds the shock-proof, shatter-proof strength that provides permanency. The lasting bond between porcelain and acrylic and the perfect shoulder fit means no seepage ever, thus no discoloration—but lasting satisfaction.

- ✓ All of the precision fit of porcelain
- ✓ All of the great strength of acrylics
- ✓ Maintenance of shoulder fit for the life of the case
- ✓ Definitely no seepage
- ✓ Definitely no discoloration
- ✓ Better esthetics
- ✓ Complete patient approval

*Established  
1919*

Remember Schroeder offers you a complete porcelain and gold service. Our expert technicians design and construct crowns and bridges from individual tooth replacements to complex bridges restoring 5, 6, 7 and more teeth. For results that mean the most to you and your patients, call or write Schroeder.

CROSS SECTION SHOWING HOW  
STIM-U-DENTS FORM A PERFECT FIT  
IN THE INTERPROXIMAL SPACES.

MAGNIFIED CROSS SECTION  
OF STIM-U-DENTS SHOWING  
POROUS, COMPRESSIBLE  
STRUCTURE.

## HERE'S WHY STIM-U-DENTS ARE SO EFFECTIVE

BECAUSE, WHEN MOISTENED, STIM-U-DENTS, BY REASON OF THEIR COM-  
PRESSIBILITY, form a perfect fit in the teeth spaces not reached by the toothbrush.

When GENTLY MOVED BACK AND FORTH they produce a highly efficient  
action to the interproximal surfaces, thereby promoting cleanliness and inter-  
dental hygiene.

SIMULTANEOUSLY, the contacted teeth surfaces are cleaned and polished, food  
particles that cause BAD BREATH and lead to DECAY are removed, and cervical  
borders of fillings and crowns are rendered bright and clean and far less likely  
to recurrence of decay.

STIM-U-DENTS are a valuable adjunct in the treatment of periodontal disease.

### **WRITE YOUR CONGRESSMEN ANENT THE FORAND BILL**

This is a *must* if you and I are going to preserve the practice of dentistry and medicine as we now know it. This is truly a crusade for freedom and the free enterprise way of life. The proponents of the measure are going all out in support of the Bill; so if you want a free choice in choosing the patients for whom you desire to work; if your patients want to keep that same privilege; if you want to carry on your practice without government as a third party—then you should study the Forand Bill and then write or wire your Representative and Senator advising that you are opposed to the Bill.

Do it right now! This is a *must*!

### **ERNEST GOLDHORN RECEIVES NEW APPOINTMENT**

Dr. Ernest Goldhorn has been appointed to the Advisory Board of the Cook County Department of Public Aid. In this capacity he will be a member of the Board that advises and assists the Director and the Board of County Commissioners in the development of policies and procedures. Dr. Goldhorn comes to his job eminently qualified by virtue of his many years of experience on the Dental Advisory Committee to the Welfare Council. Congratulations, Ernie, we know you will serve well.

### **EMERGENCY CASUALTY CARE SESSIONS**

The dental staff of the Community Memorial General Hospital of LaGrange in cooperation with the Civil Defense Committee of the Chicago Dental Society is sponsoring a three-day workshop in "Emergency Casualty Care for Dentists," to take place on March 9th, 16th and 23rd, 9:30 a.m. to 4:30 p.m., at the Hospital which is located at 5101 S. Willow Springs Road, LaGrange. There is a registration fee of \$5.00.

All Chicago Dental Society members are invited. For reservations, write Dr. Merrill J. Shepro, c/o the Hospital.

### **SECRETARY BENSON A TRULY DEDICATED PUBLIC SERVANT**

It was the writer's privilege to meet Mr. Secretary Benson at the airport and to escort him and his aide, Mr. Bert Tollefson, to the Conrad Hilton for his appearance at the Midwinter Meeting's General Session on Monday, February 8th. It was an experience I will long cherish. I found Mr. Benson to be a friendly and humble man, concerned with the problems which confront all of us. Between discussions with his aide on matters pertinent to their jobs, we were able to carry on a very friendly conversation about our Midwinter Meeting and its affairs and even exchange a couple

stories. All too soon we were at the Hilton and through the gracious efforts of the hotel's security officers we were whisked to the 24th floor where Mr. Benson's suite was located (incidentally, not at all pretentious as was reported in our metropolitan newspapers). Here I left him to hold a press conference.

If you were among the crowd of well over 1,200 who were in the Grand Ballroom of the Hilton, you must have been inspired and challenged to bend every effort to keep America strong and the free enterprise system unfettered. He pointed out that the greatest need of the hour is less government and more private and personal initiative and freedom. As he concluded amidst thunderous applause and hundreds of handclaps and personal expressions of gratitude you could not help but feel that you had been in the presence of a truly dedicated public servant and Christian gentleman. — *Elmer Ebert.*

#### **MAYOR DALEY EXPRESSES GRATITUDE**

On January 27th a letter was received at the Society office from Mayor Daley in which he expressed again his personal appreciation for the Society's generous gift to the Our Lady of the Angels Fire Fund. He thanked the Society and the many others who made possible material assistance to those who survived this tragedy. A report on the status of the Fund was enclosed.

It was a privilege for the Society to share in this very worthwhile cause.

#### **NORTH SUBURBAN MARCH MEETING**

The North Suburban Branch of the Chicago Dental Society Branch will meet on March 8th at the Georgian Hotel in Evanston. Speaker for the evening will be Dr. Byron S. Hollinshead who is directing the Survey of Dentistry in the United States under the American Council on Education. With a long and illustrious career in education and in the

analysis of educational systems, Dr. Hollinshead will report on the future of dental education, practice, health and research. Social hour will be held at 6:00 p.m. with dinner at 7:00.

#### **WEST SIDE BRANCH CANDIDATES**

The Nominating Committee of the West Side Branch of the Chicago Dental announces the following slate of candidates for office during 1960-61: President, Walter F. Zipprich; Vice-president, Frederick W. Carroll; Secretary, George R. Walls; Treasurer, Victor Ganz; Librarian, Oscar M. Berman; West Side Board of Directors, Louis K. Holzman; to Chicago Dental Society Board of Directors, Harold H. Epstein. The election will take place on March 8th.

#### **IMPORTANT NOTICE**

In accordance with the Constitution and By-Laws, all petitions for candidates for the elective offices of Chicago Dental Society must be filed at the office of the Chicago Dental Society by 5:00 p.m., March 18.

#### **N.U.D.S. COURSES TO BE PRESENTED IN APRIL**

Dr. Marvin C. Cleaver, Chief of the Plastic Eye and Restorations Clinic, Veterans Administration Regional Office, New York, with his assistants, will present a course in Maxillofacial Prosthesis, April 4, 5 and 6. Dr. Cleaver is an outstanding authority in this field. This course will deal with materials and techniques for facial prostheses and will be presented by demonstrations and three-dimensional projection of stereo color slides.

On April 4 and 5, a course on the practical approach to gold foil restorations will be presented under the leadership of Dr. Arne F. Romnes, Professor and Chairman of the Department of Operative Dentistry, Northwestern Uni-

*(Continued on page 29)*

## Interest of the State Society in Financial Assistance for Dental Students

by Maynard K. Hine, D.D.S., Indianapolis, Indiana

*(This paper was delivered by Doctor Hine before the annual meeting of the State Officers Conference, held in Dallas, Texas, November 9, 1958, in connection with the American Dental Association's Annual Convention. Doctor Hine is President of the Fund for Dental Education and Dean of the Indiana University Dental School.)*

It is an honor to be allowed to address this audience because it includes the most active and currently influential men in our state dental societies. I wish to direct your attention to the financial needs of the dental educational system: students, faculty, and program. I present no apology for discussing the financial needs of dental education since improvements in all phases of dental education will aid the dental students, the dental profession, and eventually the dental health of the public.

It seems axiomatic that there should be understanding and cooperation between organized dentistry and the dental schools. I may be prejudiced, but since I am a past president of the Indiana State Dental Association and consider myself a dental educator, I am convinced that dental education will profit from the counsel and advice of members of dental organizations and that the dental societies can be strengthened by the assistance of dental educators.

### The Dentist Has a Real Stake in Education

The practicing dentist should be interested in dental education for several reasons. From a purely selfish point of view, as dental education advances and expands so will dental practice. An improved system of dental education will help improve the standards of dental practice. Obviously, dental organizations should be interested in dental schools because from schools come their future members.

Dentists and dental societies have also a moral obligation to aid dental education. It is true that no graduate dentist actually paid more than three-fifths of his dental education; funds from endowments, appropriations from state legislatures, and gifts made up the difference in the cost. These same sources of additional funds for dental education are needed today. It is easily demonstrated also that every dental school in the country could improve its dental educational program if additional funds were made available to increase the number and quality of dental teachers, dental equipment being used, better libraries, etc.

### Societies Studying Ways to Help

How can a state dental society help dental education? Many societies already have a special liaison committee whose duty is to explore methods of assisting dental education. I think all societies should have one. This committee can encourage members of the dental society to contribute to the support of the dental school of the individual member's choice, publicize the school's postgraduate programs, assist in student recruitment, etc. This committee can also arrange to help the faculty interest students in joining and working in local and state and national dental societies. In many states—including Indiana—students are invited to give table clinics at state and local meetings, and this year a prize has been offered for the best one. Last year the Chicago Dental Society arranged a program for seniors at which problems

associated with beginning a dental practice were discussed. Dental societies can in many ways help bridge the gap between dental school and dental practice.

Also, the dental society can and in many cases does make direct contributions to dental schools for special projects of one type or another, such as student loan funds, special lecturers, etc. It is more difficult now for students to obtain employment than it was a few years ago, and costs of living, fees, and tuition have gone up rapidly. It is true also that the dental educational program requires many more hours of study than when some of us went to school. If a student is fortunate enough to find employment, he still must work long hours to pay for his share of dental education, and as a result his studies are slighted. Help in the form of scholarships and student loans is needed even more this year than in the past.

### Medicine Has a Working Plan

For many years state and county medical societies have been encouraging physicians to give to medical schools in support of medical education. Also, since 1949 many medical societies have voted to provide assistance by adding to their dues amounts from \$20 to \$100 which they allot to medical schools. This program of helping medical education through dues assessment is commonly known as "support through dues" and funds raised by this method are now being administered by the American Medical Education Foundation. While there may be some who, on first glance, might regard this type of support as a form of taxation upon the members of a state society, it actually is more of a voluntarily assumed obligation to spread the mantle of responsibility for supporting professional education most equitably upon the membership of the profession. You may be interested in knowing that this has not generally interfered with voluntary giving by the physician direct to his school. In actual practice it has worked to the advantage of the physician taxwise because the portion of

his support which is incorporated into his state dues is deductible as a business expense. The additional amount he gives direct to his school's alumni fund can be deducted under the gift provision in the income tax.

### Dentistry Lacked a Coordinated Effort

Until recently there has been no national foundation whose sole purpose is to aid dental education, yet it seemed obvious to many of us that a fund for dental education could perform a valuable function. In 1952 Dr. Otto Brandhorst, President of the American Dental Association, presented a resolution urging serious consideration of supporting a fund for dental education and asked the House of Delegates of the American Dental Association to approve in principle the establishment of such a fund. The Board of Trustees did approve this resolution at that time, and the House of Delegates referred the problem to the Council on Dental Education and the American Association of Dental Schools for study. In 1954, while President of the American Association of Dental Schools, I recommended that the Executive Committee be authorized to establish a foundation designed to aid dental education. A study was made of the organizational plans for several foundations, including the National Fund for Medical Education and the American Foundation for Pharmaceutical Education, the latter now twelve years old, and it was decided to form an organization somewhat similar to them.

### Dental Fund Organized

The Fund for Dental Education, Inc., was then organized in 1956 and under its broad general charter can be considered a tax-exempt educational foundation—that of promoting dental education. The Fund can receive money earmarked for special projects or for general use. The general objective of the Fund is to assist in the growth, develop-

*(Continued on page 31)*

# News of the Branches

## South Suburban

Has everyone recovered from the convention yet? Now that we have increased our knowledge and seen all the late advances, we have the still harder job of putting them to practice. . . . March 1 is the date of the next Branch meeting. For our program Doctors D. Torch and A. Sherow will speak. As I understand, the subject of their talk will be a non-traumatic approach in handling a case of rampant caries in a child while utilizing general anesthetic. Dr. Torch has recently been ill and spent a couple weeks in the hospital; however, he has returned to practice on a limited basis. . . . The St. James Hospital staff had a dinner on February 4th, with their wives. The purpose was to tour the new addition to the hospital in which there will be very nice facilities for dentistry. The minor operatory rooms will be equipped with a high speed water turbine to enable operative dentistry to be done under general anesthetic. There are two operatory rooms, a laboratory, and a dark room on the first floor, which may be an out-patient clinic in the future. . . . Herman Gornstein has announced that the new Branch Dental Study Club met on Friday, February 26, from noon to 2:00 p.m. The speaker was Edward Lang who talked to the group on Complete Amalgam Technic. They plan to meet each successive month on the last Friday for a luncheon meeting. . . . Dr. Sheldon Wallach will be the speaker at our April 5th Branch meeting. On the following day, April 6th, he and his partner, R. Lanfranchi, will give our spring all-day seminar. Be sure to mark off this day on your appointment book. The day will be spent on aspects of oral surgery, sterilization and hospital routine, and should be a great help to the general practitioner. . . . Our Branch should feel proud to have as members such men as Doctors Torch and Sherow, pedodontists;

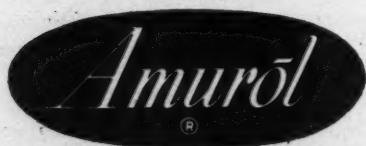

and Doctors Wallach and Lanfranchi in oral surgery, who are so willing to give of their time to broaden the knowledge of the branch members. Let's have large attendance at the next two meetings to show our appreciation. . . . March 31 is the deadline to reregister under the new state dental license law. Send it in right away so that you are not penalized. . . . That's all for now.—Donald H. Murphy, Branch Correspondent.

## Englewood

Convention postscripts. . . . Do you remember when you loaded a triple wardrobe, seventeen baskets, boxes and desk-light, and an overgrown rag doll or stuffed animal, and drove your daughter to Squeedunk College for her to enter her Freshman year? Ted Lindholm recently shared this experience with his daughter. The college, Millikin. . . . Vin Milas was not too busy with his job as secretary of the American Association of Endodontists (they started their Convention two days ahead of anybody else) to receive a birthday telegram from his granddaughters. The typing was beautifully done, and they are only twenty months and eight months respectively. . . . The endodontists had Tom Starshak working as chairman of their budget committee in spite of a recent bout with the flu. . . . Les Kalk was chairman of the local arrangements committee which put on a real 3-ring circus. . . . Regret to hear that Joe Plewa's daughter broke a tibia while skiing up Lake Geneva way. That makes her a veteran. . . . Business was so good while he was Chairman of the three-day Table Clinic festival that Sam Rabishaw took off for Florida on Feb. 19th. . . . Hate to think of Columnist Tony Weitzel as anything but a kindly, interesting writer, but that *Daily News* barb of his against our Agriculture Sec'y Benson certainly made him a cat's paw

**AMUROL PRODUCTS COMPANY**  
NAPERVILLE, ILLINOIS

for somebody's spleen. It tended to be-  
little our Society as well. . . . Jim Black  
has identified himself with a local Re-  
publican headquarters since retiring. Says  
it is a warm place to go to and he pays  
his own salary so nobody can kick. . . .  
Glad to see Pete Palulis. This time last  
year he wasn't feeling so pretty good.  
. . . . Stickney's Dental Health Division  
of the Board of Health was ably pub-  
licized by a splendid exhibit presented by  
its director, Rod Marks. Much of the  
material was new. The highlight was a  
child's headfigure with removable teeth,  
in all stages of decay, which could be  
superimposed on the original teeth to  
show "what happens." The teeth are  
held in position by magnets, and can  
quickly show innumerable situations. I  
sure would like a copy for teaching use.  
. . . . Compliments to whoever procured  
Ezra Benson to address us on the night  
of the first general session. He sounded  
one clarion note, "less Government in  
farming." With becoming humbleness,  
Mr. Benson observed that he was in a  
tough spot on the program, following  
that magnificent chorus, "The Singing  
Men of Steel." We are proud that our  
own Linn Cooley has been singing with  
them for 20 years. . . . Englewood Branch  
is properly proud of the performance of  
its men in offices of the C.D.S. and their  
success with the Midwinter Meeting.  
Harold Hayes, as president, had led us  
and contributed greatly. Paul Kanchier,  
as secretary, has upheld all traditions.  
Harry Kazen, general chairman, found  
new heights to scale, and did it. Con-  
gratulations. . . . Under clinicians, essay-  
ists and moderators, we contributed Dick  
Davido, Art Krol, George Runyan, Joe  
Ruzic, Al Spiro, Harry Spiro, Ray Van  
Dam, Ted Vermeulen, Ed Wach, Lew  
Weil, and Jack Manning, chairman of  
Registration and Credentials. . . . Seen  
in Old Timers room: Rudolph Schloss-  
ser, professor emeritus in prosthetics from  
N. U., Herman Wenger, president-elect,  
Ill. State Society. . . . Grandfather Dept.:  
Ernie Goldhorn anxiously waiting No. 2  
grandchild. . . . They're old hat to Leo  
Finley who, two months ago, received his

fourth. . . . Paul Kanchier was the fastest draw with the pictures of his'n. . . . I was humiliated that my second grandson's picture was in my other gunbelt. . . . The drama that is Old Timers Room was highlighted by the performances of co-chairmen Lou Horevitz and Stan Pacer. These men were up at the crack of dawn to trudge the streets for the lowest prices on crackers, cheese and salami for our edification. They served long and well with food, drink, dissertation, anthology and wit. Bless them for promoting what we all talk about and practice little—Good Fellowship.—*Mal Brooks, Gene Jaffe's helper.*

## North Side

Each time that I sub for Bill Semiloff in the capacity of branch correspondent, my respect for the magnitude of his bi-weekly task deepens. So many shy people! I tried to squeeze some news out of Bill d'Autremont. "Anything," said I "like did your wife get a new hair-do even?" "Why should she," said he "she hasn't worn out the old one yet." Of course, that is not the sort of thing that I would submit for publication. . . . The most consistent comments that I received were those extolling the Midwinter Meeting. The comments were all in superlative terms. Continuing growth of both the significance of and attendance to future meetings are the necessary offspring of such efforts. . . . Some of the proud fathers strutting about the meeting were Max Feinberg, Mike Dolnick, Max Chubin, and Lee Levey. Their dentally oriented children were close at hand. Lee's daughter had an excellent clinic on nutrition. Max Chubin's daughter had a clinic to present but ended up in the hospital to undergo some knee surgery. Ted Dubrow contracted a common form of exophthalmia at the meeting. It is known as the Monique Van Vooren Syndrome. More speedy recovery wishes to bridge ace Howard Greenberg and his virus, to Basil Cupis who is recovering from an eye ailment, and to Dan Silberberg's daughter. . . . By all means don't forget

Dr. \_\_\_\_\_

Address \_\_\_\_\_

Phone No. \_\_\_\_\_

the North Side Branch meeting on March 15. It is the night of elections as well as the regular dinner and speaker. The slate of officers submitted by the nominating committee are as follows: Director, Herb Krummel; President, Stan Goldberg; Vice-President, Ruby Kadens; Secretary, Bill Semiloff; Treasurer, Bill d'Autremont; and Librarian, Ray Bro. The speaker will be Bob Hancock and his subject is "Denture Phonetics, Esthetics, and Function." Also in the important dates department are the North Side Workshop on Sunday and Monday, March 20-21, featuring the outstanding periodontist, D. Walter Cohen. Contact Ruby Kadens for information. While you have the office on the phone make your reservations with Carl Sudakoff for the Uptown Dental Forum Anniversary party at Oakton Manor for Friday afternoon, March 31 and April 1-2. . . . Please remember that the Illinois Junior Academy of Science needs judges. They meet at the University of Illinois at Urbana on May 6. Contact some of last year's judges for information. Among them were Earl Elman, Art Duxler, Murray Hoffman, and Paul Brown. . . . I am trying to convert Sam Kleiman into a North Sider. It might work if Nevada doesn't get him first. He was one of about three of nine applicants who passed the board out there last December. Shelly Rosenstein just returned from taking the California board. . . . On behalf of the branch I would like to extend our profound sympathy to Jules Hazelkorn and his family. His oldest son died in a traffic accident on Edens Highway during the heavy snowfall a few weeks ago. . . . Mark Mendelsohn asked me to credit Ron Rothenberg for getting Basil Bibby of the Eastman Dental Dispensary as the luncheon speaker for the Children's Dental Society. The Smithsonian Institute could not obtain a pterodactyl so they are bidding for Bill Semiloff's car. It is an Edsel. . . . The itinerating North Sider is commonplace. Ernie Kupfer is planning a trip to Alaska. Herb Gordon joined his wife in Florida. From there they went to Nassau. Abe Goldstein

is preparing to leave for Florida. In celebration of his 25th anniversary Max Feinberg took a three-week Hawaiian vacation. He stopped on the way to fatten the coffers of Lost Wages. I just returned from a trip in honor of unwed bliss. One week in Miami followed by two weeks in the hypnotic Caribbean aboard the *Italia*. I'm out of room here but I have slides.—*Herb Lippitz, Assistant Temporary Correspondent.*

## Northwest Side

By this time we presume the bunions and corns have relaxed a bit and the varicosities have lost some of their prominence. The long walks through the corridors of the Hilton, the frequent trips up or down a flight or two of stairs from one level to another, the milling and standing around the table clinics may have taken its toll on all but the hardest. However, we're sure you went home with at least one good idea, out of the thousands available, to apply in your daily practice of dentistry. If you missed all of them at least there was a measure of entertainment in renewing old acquaintances with classmates and developing new friendships with dentists from all parts of the world. And if that isn't enough we're sure you went home healthy judging by the piles of apple cores in evidence. . . . Another good meeting coming soon will be Northwest Side's annual Ladies' Night, tentatively scheduled for May 11, 1960. Lee Schwartz, the chairman for the occasion, is dickering for some fabulous entertainment. You can't afford to miss this evening of good food, good entertainment, good dancing, and good spirits. Jack Paar expects to be off the air for quite some

## NEWS OF THE BRANCHES

(Continued from page 18)

time so you'll have little excuse to stay home. . . . Our regular monthly meeting will be at DiLeo's, Elston and Central, on Tuesday, March 1st. . . . We offer our sincere sympathies to the family of Warren Eggers who passed away suddenly last month. . . . The prolific pen of Abe Tamarin will be and has been apparent in such journals as the *Nebraska Chronicle*, *Tikdschist Voor Tandheelkunde* of Amsterdam, Holland and journals of France, Berlin, Heidelberg, Switzerland, Colombia, Brazil and England. Abe's articles get around so much that he's toying with the idea of a grand tour of Europe. . . . Bob Schnell, our traveling dentist who alternates between North Chicago and the far, far northwest is a troop committeeman for the Boy Scouts as well as a merit badge counselor for Bird Study, Public Health and Personal Fitness merit badges. If you'd like to hear an interesting story ask Bob about the tornado at Philmont. . . . Jim Mershimer received a letter from Gus Tilley of Hollywood, Fla. Gus misses the boys and would like to hear from them occasionally. . . . Jaskulski, Rossa and Chrobak cut quite a fancy caper doing the mazurka at the recent formal dinner-dance at the LaSalle Hotel given by the Dental Arts Club. . . . See you all at the next meeting.—V. T. Weclaw, Branch Correspondent.

## North Suburban

With another Midwinter Meeting just past, it's a little difficult to round up any other news. I suppose that I could pull a sneak and just list the men who were at the meeting, but I'm sure I'd miss someone, and create some hurt feeling. I haven't seen many of the men who stayed down until Wednesday night, but I imagine there were some interesting tales about return trips in that snowstorm of the 9th and 10th. Our own Libertyville was one of the hardest hit areas, and I had some anxious minutes, but made it without being stuck. . . . John

Boyle of Winnetka mentioned at the meeting that he had just spent three days up at Rockford's Wagon Wheel before coming to the meeting. I would think a few days up there after the meeting would be indicated. . . . There are several fellows taking off at this time, Chuck Mercier, of Winnetka, has the most ambitious plans of all, a 5-week African safari with his wife and two boys, starting on the 11th of February. . . . Bill Ford, one of the Winnetka orthodontists, took off to Majorca, Spain, for a couple weeks on the 6th of last month. . . . Adrian Swanson, of Evanston, extended the time off for the meeting another three days in order to go skiing up at Lake Long. . . . Con Medley, Waukegan wire-bender, and his wife were down in Acapulco, Mexico. . . . There were a couple events during the big meeting that I think deserve special mention. The U. of I. class of '50 held a dinner reunion on the 8th out at the Lake Tower Motel, a fine meeting hall, by the way. Two local boys at that confab were Seymour Solo-

mon of N. Chicago, and Ed Sherwood of Libertyville. . . . At the luncheon of the American Society of Dentistry for Children, I learned that Jane Selbe is President-elect of the Illinois Division, and Ronnie Rothenberg, of Skokie, is the current Sec'y-Treas. Incidentally, for any one who is interested, the ASDC is planning to repeat their Spring Seminar at the Wagon Wheel Inn, in Rockton, Illinois, on April 4-6. . . . In the Hospital & Surgical News for the past couple months, I hear Chick Gold of Waukegan had a little surgery performed on the 19th day of January, a hernioraphy, I understand. . . . At the last meeting of the Lake County Dental Society, our beloved president was missing because of a severe muscle spasm he developed while shaving that day. Leo Janks talked to me that afternoon, cause I had to take over the meeting, and he was afraid at the time that it might be that bugaboo of our profession, a displaced disk. However, I saw him in the old South Room of the Hilton, and he was lifting those glasses without any apparent difficulty. . . . George Krueger and his wife are the parents of an addition to the family, No. 7 child, No. 3 boy, as of the 26th of December, just in time for the income tax deduction. . . . Ralph Pomierski tells me that he and his brother out in Mundelein, have added a hygienist to their staff. . . . I just talked to my quiet Evanston spy who helps out in this gossip column, and I understand the Evanston Association has a new slate of officers:

Zenas Shafer, President; Bob Whitfield, President-Elect; Vice-President, Axel Pedersen; Harry Chronquist, Sec'y-Treas.; Charlie Baker, Librarian; and the 5th member of the board, Floyd Grover. . . . Coming meetings in the area: Lake County Dental Society will meet at Hank's Restaurant, Waukegan, on March 7, but to date the speaker is not certain. . . . CDS North side branch meeting is March 15, at the Edgewater Beach Hotel, Mr. Robert Hancock will discuss "50 Years of Esthetics, Phonetics, and Functions." Those interested should call Dr. Ray Bro, IN 3-8860. . . . CDS North Suburban branch will meet at the Georgian Hotel, March 8th, in Evanston. —W. S. Sherwood, Branch Correspondent.

## West Suburban

Round Table will meet on Monday, March 7th, at Oak Park Club. Speaker will be one of our members, Dr. Henry Reiseman, and his topic is "Retirement for Dentists." . . . The following day, Tuesday, March 8, is our annual clinic nite and the site will be The Oak Park Club. Fellowship hour at 6:00 p.m. and dinner at 7:00 p.m. The clinics will be very interesting and are worth a great deal to everyone. Wives and assistants are invited. . . . Harry Brown may be a young man but he is an "Olds" man now. . . . Far West Study Club will visit Eli Lilly and Company on March 13, 14,

and 15. We wish all of you a pleasant trip. . . . We hope Bill Fellman a quick recovery from his bout with his surgeon's scalpel. . . . Harry Kanta and Ed Hovorka have joined The "T" Club. Seems as if they are Thunderbird salesmen too. . . . Received a nice letter from William McNeil. Bill is in Utah and is a consultant for Veteran's Administration. His son, Dean, is an ardent skier. How was Eagle River, Wisconsin, Dean? . . . Bill Aquilino is very interested in West Salem, Wisconsin. . . . Werner Gresens and Al Kuncel enjoyed a hiatus in Florida. . . . Oliver Johnson enjoyed his silver anniversary in dentistry. His class was honored at Northwestern Alumni dinner during the last Midwinter Meeting. . . . Harry Thodos is getting restless for the golf season. Yours truly, too, Harry. . . . News is at a minimum since we haven't met since last December and we hope to pick it up—so, what's news! . . . Perry Dontist informs us that "Gossip always travels faster over grapevines that are slightly sour." . . . Till next time.—*D. J. Catrambone, Branch Correspondent.*

## Kenwood-Hyde Park

The great ninety-fifth Midwinter Meeting is now history, but from the enthusiastic comments I heard all over the Hilton, it will be remembered for a long, long time as one of the very best meetings ever presented by our Chicago Dental Society. This is, of course, like any other meeting of its kind and scope, a

tremendous undertaking, its success is entirely due to the wonderful work and cooperation of the members of our Society, and Kenwood-Hyde Parkers may justifiably share in the pride of a job well accomplished for there were many who helped make it the scientific and social success it was. . . . Let's start at the top with our Treasurer, Rudy Grief, and our Director, Jesse Carlton, two fine people who always do just a little more for the Society. . . . Franklin Otto and Clint Fisher did a great job as Chairman and Vice-Chairman of the Essay Division, and Clint and his lovely and expressive wife worked hard on Sunday telling the dental students and their wives how easy and lucrative dentistry is. . . . Howard Harvey, our "boy president" (he sure has a lot of kids for such a young boy, doesn't he?), served as Vice-chairman of the Limited Attendance Clinics with the help of Cliff Randall. . . . Johnnie McBride was Vice-chairman of the Table Clinics and the ones I managed to get close to were quite terrific. . . . Ben Gans helped in the Projected Essay Division and then did double duty by giving an essay on Wednesday morning. . . . Warren Lutton and Willard Johnson, as Chairman and Co-Chairman, were giving out the information like mad, and from all reports it was generally accurate, although I have been reliably informed by a reliable informant that Warren ate so many apples, that cider formation set in toward the last day and his information on Wednesday left a little bit to be desired. . . . **IS SAFER FOR TENDER GINGIVAE**

*Exclusive "Rounded Trim"  
cleans, massages gently*

Here is a completely new concept in toothbrush design. Dr. Butler's G·U·M-brush is more tolerable to soft tissues than other "periodontal" brushes because the sharp edge characteristic of all straight-trim brushes has been eliminated by *rounding off* the edges. The brush of choice for effective, *safe* cleansing and massage, for any patient with sensitive gingivae.

Ordinary straight-trim brush has sharp edge

New G·U·M-brush has gentle, rounded edge

\*Gentle  
Uletic  
Massage

\* Genuine surgical rubber interdental stimulator tip

\* Name "G·U·M" on handle reminds patient to massage gums

\* Now in natural bristle as well as "Velvet-Tip" nylon

\* Small brush head for posterior maneuverability

Write for free sample (specifying natural or nylon)  
on your professional letterhead to: Dept. F-3

worked on the Adult Dental Health Education Committee . . . Henry Leib was really dashing about the whole place because he was Vice-chairman of the General Arrangements Committee, and this is a really hard working job. Wilbur Spencer was also on this committee where everybody works. . . . Mrs. Franklin Otto helped on the Ladies Entertainment Committee and from all reports their activities planned for the ladies were lovely. . . . Last to list are those smooth guys they put on the Reception Committee and three of the smoothest were of course: Elmer Ebert, Editor deluxe; Walt Dundon, happy traveler, and Bob Wells, gentleman farmer. . . . Speaking of farms, it was a great delight to see Reed Thornton at the meeting after many, many years. He still looks the same and his friends will be happy to hear he is contentedly raising beautiful grapes on his Michigan farm. . . . The greatest hair-raising job I saw at the meeting was the beatnik beard on Willard Johnson, but when I questioned him about this *tour de force*, he carefully explained that he was actually raising this hair as a transplant for Mort Isay. . . . Bob Kreiner is to be complimented for the fine job he did to arrange all those breakfast conferences. They were very successful and the one universal comment I did hear was, "That guy Kreiner is really a good cook, but how come the eggs all had shells in 'em?" . . . I'm a little late on this next item—Mel Maclin's wife gave birth to a wonderful 9-lb., 4-oz. baby boy last Thanksgiving, and Mel is still plenty excited. . . . I close this column with a deep feeling of sadness, for Bill DeLarye, one of our best friends, has suddenly passed away. Right up to the last moment Bill had been working at the Mid-winter Meeting as a member of the Exhibit Registration Committee. Bill often hid a deep and great kindness underneath a refreshing outspokenness. He was a credit to dentistry and himself, and on behalf of our Branch may I extend our heartfelt sympathy to his wife and young children.—Stanley R. Korf, Branch Correspondent.

## NEWS AND ANNOUNCEMENTS

(Continued from page 12)

versity. The participants will condense foil according to the modern methods which have caused renewed interest in this subject.

A course of special interest to dentists interested in the subject of physiologic function as related to dental prosthetics will be presented April 20-22, inclusive, under the leadership of Dr. C. N. Skinner, of Whittier, California, with the assistance of Drs. Stanley C. Harris and Eugene W. Skinner of Northwestern University. There will be practical demonstrations on patients with participation by the registrants.

For further information, address Director of Postgraduate Study, Northwestern University Dental School, 311 East Chicago Avenue, Chicago 11, Illinois.

### GERIATRIC SOCIETY ELECTS OFFICERS

The American Society of Geriatric Dentistry held a very enthusiastic and successful luncheon-seminar on February 8th during the Chicago Dental Society Midwinter Meeting. The principal speaker was Dr. Daniel H. Gehl, Professor of Prosthetic Dentistry at Marquette University.

The following officers were elected for the current year: President, Dr. Dayton D. Krajicek, Director of the Dental Dept., Veterans Administration, Wadsworth, Kansas; Vice-president, Dr. Harry M. Friedman, Jewish Home for the Aged, Detroit, Michigan; Secretary, Dr. Philip G. Rubens, Drexel Home for the Aged, Chicago; Treasurer, Dr. Hyman N. Elfenbaum, Geriatric Department, Michael Reese Hospital, Chicago.

### I.D.A.A. SPRING MEETING

ment, and advancement of dental education, and the organization of the Fund is similar to that of other funds already serving the other health professions.

The Fund for Dental Education has the sanction of the American Association of Dental Schools and the Council on Dental Education of the American Dental Association. The following resolution was approved by the Executive Committee of the American Association of Dental Schools, the Board of Trustees of the American Dental Association, and the House of Delegates in Miami last year:

WHEREAS, There is an enormous acknowledged need for increased support of dental education if the dental profession is to meet the increasing demand for dental health services from the growing population of this nation, and

WHEREAS, The opportunity of supporting the proper growth of dental education through the expansion and improvement of existing facilities and the establishment of new ones is now available through the facilities of the Fund for Dental Education, recently incorporated as a not-for-profit corporation under the leadership of the American Association of Dental Schools, and

WHEREAS, The dentists of the United States, particularly the members of the American Dental Association, have the additional obligation of returning in part

the ever-increasing but unfunded cost of the dental education they have received which has made possible both the livelihood which they enjoy and the privilege of service to the public, therefore be it

RESOLVED, That the Fund for Dental Education be approved as a worthy recipient and competent distributor of funds received for the furtherance of dental education, and be it further

RESOLVED, That the individual members of the American Dental Association and the component and constituent societies be urged to initiate and participate in continuing programs to make new support available for dental education through the facilities of the Fund for Dental Education.

**Seed Money Has Been Raised**

More than \$75,000 has already been given to the Fund for Dental Education, although active solicitation is only now beginning. Most of the contributions to date have come from corporations which are members of the American Dental Trade Association. That organization has made a direct grant and has encouraged its members to make Memorial Gifts to the Fund in tribute of departed colleagues and loved ones.

One of the first questions that is asked by foundations and companies approached for a gift is, "How well do your own people support your program?" or "What is dentistry doing to help dental education?" It is important that we start immediately to awaken members

of the dental profession to the necessity for them to contribute regularly and substantially to the support of the schools of their choice, not only because their gifts will have a definite value but because these gifts will have the additional value of encouraging those outside the profession to realize that dental education is gaining support from the dentist and is worthy of substantial outside support.

### **The Fund Will Help**

If any state dental association wishes to consider a group plan designed to support dental education financially, officers of the Fund for Dental Education can give consultation, advice, and technical assistance. The Fund now has employed a full-time executive secretary, Mr. G. Willard King, who has temporary offices in the Northwestern University Dental School in Chicago. Permanent offices will be ready late in January in the new American Hospital Association

building at 840 North Lake Shore Drive, Chicago 11, Illinois.

Money has already been given to the Fund specifically to support two fellowships for graduate dentists who desire to teach, and a committee of the Fund for Dental Education is selecting the recipients. Educational conferences and workshops, held on a geographical basis, at dental schools for teachers of dentistry are receiving grants from the Fund. As more money becomes available, it is planned to make direct grants to the forty-seven dental schools in support of their teaching programs with an eye toward providing more full-time faculty.

Those of us who have worked in the organization of the Fund believe that more money from dental manufacturers, pharmaceutical concerns, foundations, the dental profession, and the business world will become available. This money will be of great value in improving dental education in the future. We ask your thoughtful consideration and wholehearted support.
